

## ABSTRACTS

### 10. Gyula IVÁN: *Activities of FIG Commission 7 Working Group 4 – Citizen Cadastre*

*Activities of FIG Commission 7 (Cadastre and Land Management) Working Group on Citizen Cadastre are dealing with different issues of Cadastre. The presentation will cover the following themes of the WG:*

- *Role of Land Owners in Cadastral Activities,*
- *Changing societal and environmental needs,*
- *Performance of Land Administration systems,*
- *Changing forms of Land Tenure (e.g. temporary, agricultural, conditional LT),*
- *Security of Land Tenure,*
- *Different Data Models (e.g. multitemporal, multidimensional cadastres),*
- *Cadastral Standards,*
- *Cooperation with other Commissions and WGs within the Commission (e.g. Joint 3D Cadastre WG with Commission 3)*
- *Legal issues in 3D Cadastre etc.*

*Because of the fast changes and arisen societal and political problems during the last years in the world, new issues will also be discussed, such as migration, climate change and others and their influence in Land Administration systems.*
